EXPERIENCE

- **Software Developer Intern** *Remote*
  Valnee Solutions *09/25 - 11/25*
  - Developed core features for SignalMint and GhostWriter AI, optimizing AI workflows, payment systems, and scalable UI/UX improvements for Valnee's website.
  - Built a subscription billing system with Razorpay/Supabase for SignalMint, implementing multiple pricing tiers, autopay, and 40% faster page load with media caching optimization.
  - Streamlined key platform capabilities for GhostWriter AI, including content creation workflows, carousel generation flows, and boosting end-to-end content-generation reliability.

PROJECTS

- **GhostWriter AI (Next.js, Typescript, Tailwind, shadcn/ui, Supabase)** *10/25 - 11/25*
  Github Repo Link
  Live Link
  - Engineered multi-source RAG + Deep Research pipeline using Firecrawl/Apify + Gemini (fact-checking, voice-pattern JSONB profiles, emotion-driven ideation) with PostgreSQL TTL caching to cut external API calls by ~60%.
  - Made dual visual-generation systems: Gemini-template chained carousel engine (V1) and Sharp-based Text→PNG renderer (V2) with responsive previews, Base64 conversion, and JSZip batch export.
  - Implemented full monetization & publishing layer with credit-logic (stored procedures), Razorpay validation, LinkedIn OAuth scheduling, and a structured content library supporting drafts/ideas/feedback workflows.
- **AI Flashcard Wizard SaaS (Next.js, Typescript, Clerk, Razorpay)** *06/25 - 07/25*
  Github Repo Link
  Live Link
  - Orchestrated an AI flashcard engine using Google Gemini to auto-generate structured Q/A cards from text with unlimited collections, smart organization, and real-time study tracking.
  - Integrated Basic/Pro monetization with Razorpay, Firestore real-time CRUD and Clerk-based user-isolated data sync across devices.
  - Crafted a modern Next.js 15 UI with Tailwind/Radix UI, featuring smooth flip animations, dark/light modes, advanced analytics, and Pro-only PDF export.
- **FlavorShare Recipe Platform (PHP, Tailwind, JavaScript, MySQL)** *02/25 - 04/25*
  Github Repo Link
  Live Link
  - Produced a full-stack recipe platform with secure auth, PHP/MySQL prepared-statement CRUD, dynamic JSON-based ingredients/steps, and a community 5-star rating system with auto-calculated averages.
  - Designed a responsive Tailwind UI with drag-and-drop image uploads, real-time async updates, interactive modals/toasts, and newsletter subscription integration through PHPMailer.
  - Execute advanced discovery features including multi-category filtering, featured-recipe ranking improving user discovery by 2x, and server-validated actions using prepared statements for safe data handling.

EDUCATION

- **Lovely Professional University** *Punjab - India*
  Bachelor of Technology - Computer Science - 7.7 CGPA *2023 - 2027*

SKILLS SUMMARY

- **Languages** C++, Python, Java, PHP, SQL, JavaScript, Typescript
- **Frameworks** React.js, Next.js, Tailwind CSS, Material-UI, Radix UI, Streamlit
- **Databases** MySQL, MongoDB, PostgreSQL, Firebase, Supabase
- **Tools** VS Code, Figma, Postman, Canva, Git, GitHub, Docker

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** - Oracle
- **Software Development Processes and Methodologies** - University of Minnesota
- **Decode DSA with C++** - PW
- **Flipkart GRiD 6.0 - Software Development Track** - Unstop & Flipkart

SCHOLASTIC ACHIEVEMENTS

- Solved 400+ problems on LeetCode, GeeksforGeeks, and Code360.
- Selected as a Contributor for the GirlScript Summer of Code 2024 Program from among 30,000 registrations, placing in the top 300 on the leaderboard.
- Participated in The Arcade 2023 & 2024 by Google Cloud, winning a Standard tier swag prize.
- Founded and scaled TechBire into a monetized SEO-optimized tech blog and gained a 7,000+ follower audience on Dailyhunt within four months.
