SKILLS

- **Languages**: C, C++, Python, JavaScript, Java, TypeScript
- **Frameworks**: HTML, CSS, Tailwind CSS, PHP, React.js, Node.js, Express.js, Bootstrap, jQuery
- **Databases**: MongoDB, MySQL, PostgreSQL
- **Tools/Platforms**: Visual Studio code, MySQL Server, Figma, XAMPP, Git/GitHub
- **Soft Skills**: Analytical Thinking, Time Management, Leadership

PROJECTS

- **Cricket Management System** | (Live Link) (GitHub) Dec'25-Jan'26
  - Created a **comprehensive web-based Cricket Management System** to efficiently manage **teams, players, match schedules, and tournament data** through a **centralized, user-friendly platform**, improving data organization and operational efficiency.
  - Designed and implemented **structured data modules** for **player profiles**, **match statistics**, and **performance records**, ensuring **high data accuracy**, **fast information retrieval**, and **seamless real-time updates** across the system.
  - Improved user engagement and accessibility by developing a **responsive interface**, **manager dashboard for team management**, **real-time data visualization**, and an **integrated Socket.IO–based chat system**.
    Tech: **HTML, Tailwind CSS, React.js, Node.js, Express.js, Socket.io, MongoDB**

- **DevOrbit AI Chatbot** | (Live Link) (GitHub) Feb'25-Mar'25
  - Developed **DevOrbit AI Chatbot**, an intelligent conversational platform designed to provide real-time assistance, guidance, and automated support through natural language interactions.
  - Integrated an **AI-powered response engine using the Gemini API**, organizing the platform into three core sections **Courses, Assignments,** and **Daily Quizzes** to deliver structured, context-aware learning support.
  - Formulated and integrated a **daily assignment generation and tracking system based on enrolled courses**, enabling structured practice, consistent learning progression, and personalized feedback for users.
    Tech: **HTML, CSS, JavaScript, NodeJS, Python (Flask), Gemini API**

- **Traffic Management System** | (GitHub) Dec'25-Jan'25
  - Produced a **web-based Traffic Management System** using **HTML and Tailwind CSS**, delivering **responsive and user-friendly interface** for traffic rule display and monitoring.
  - Built robust **backend functionality with PHP and SQL** to handle **traffic records, violations, system updates**, ensuring **secure and efficient data management**.
  - Upgraded system operations by adding **admin control modules and structured data workflows**, enabling **effective traffic management and faster decision-making**.
    Tech: HTML, Tailwind CSS, JavaScript, SQL, PHP

TRAINING

- **OOP Using C++ | Lovely Professional University** | Certificate Jun'25-Jul'25
  - Gained hands-on experience in **Object-Oriented Programming (OOP)** using **C++**, applying core concepts such as **classes, objects, inheritance, polymorphism, and encapsulation** to solve real-world problems.
  - Executed modular and efficient programs by implementing **data abstraction, constructors/destructors, and file handling**, improving code reusability and maintainability.
  - Enhanced problem-solving and logical thinking skills through **practical exercises, mini-projects, and debugging sessions**, following **industry-standard coding practices**.

CERTIFICATES

- Python Essentials | Cisco Network Academy | Certificate Jan'26-Feb'26
- Full Stack Development With Mern Stack| Nasscom Foundation | Certificate Nov'25-Dec'25
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM| Infosys Springboard | Certificate Aug'25-Sep'25
- Legacy Responsive Web Design | FreeCodeCamp | Certificate Sep'23-Oct'23

ACHIEVEMENTS

- **Solved 150+ coding problems** across different platforms (Leet Code, Geeksforgeeks). Jan'25-present
- **Secured Runner-Up position** in a **college-level Hackathon,** demonstrating strong **technical skills, teamwork**. Feb'25-Feb'25
- Contributed as a **student volunteer** in organizing college technical events and workshops. Jan'24-Dec'25

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering | CGPA: 6.6 *Aug'23-present*
- **St. Xaviers's Public School (C.B.S.E)** Gorakhpur, (U.P)
  Intermediate | PERCENTAGE: 68% Apr'21-Mar'23
- **Smart Move Academy (C.B.S.E)** Machwa, Bihar
  Matriculation | PERCENTAGE: 67% Apr' 20-Mar' 21
